Seminar Report

Presenter: Mücahid KUTLU
Company: TOBB-ETÜ
Presentation date:16.11.2018

Short summary of the talk:

First, the presenter spoke briefly about himself and talked about research experience. (MS, PhD, post doct).
Second, another topic of speech was computer science.

What have you learned?

I learned that what should I do if I want to pursue an academic career?
For example, i should try to understand which field you are interested in computer science
What do you do get an acceptance in a PhD program? And such as, i learned about academic career.

Which parts of the presentation were particularly important/useful?

I think the most important part is about being good in English. Because English is a great advantage for both academic career and business life.

Comment on the talk, the presenter, the company, and their projects.

It was beneficial speech to learn about the academic career.
