What is our project?

This application aims to bring together masters and customers who request renovation. Customers who request renovation can easily find masters suitable for their requests. Customers can choose the most suitable master from among various offers. S/he can talk to the masters who make the offer about the work s / he will make. Customers can get information about the previous jobs of the masters. As a result of the service they receive, they can objectively evaluate the master. The job demands of the masters are increasing through this site, they can present their experiences in the best way by creating a portfolio for themselves.

HURRY UP USTAM

4 Important Task

TASK 1: Master Creates Own Profile

The fact that the master adds his/her personal information, the department s/he has worked in, the works s/he has done before, and which locations s/he can serve, to his/her profile ensures that s/he can communicate with the customers correctly.

HURRY UP USTAM

TASK 2: Master's Bid for Demands

The master displays the demands of the users in her/his field and after making the necessary filtering, s/he sends an offer to the most appropriate demands and waits for a response from the user.

HURRY UP USTAM

TASK 3: User Creates a Demand for Renovation

The user logs in for the renewal they want to make, fills in the necessary information, uploads images of the area to be renovate and creates a request.

HURRY UP USTAM

TASK4: Select and Communicate Master

There is need to login to search for masters registered with the system. The user can decide to register to the system by looking at the existing masters and user assessments, or you can renovate the master it chooses.

Why we choose brizy.site?

- Allows teamwork
- Flexible page
- Free use
- Minimal and aesthetic appearance

What we improved?

- 1) We changed the colors we use on the site and we got a simpler look by using less colors.

- 2) We added some images to the site so it looked aesthetically more beautiful.

- 3) We added that the user can easily navigate to the homepage on every page by clicking on the logo.

HURRY UP USTAM

- 4) We changed the comment section on the masters evaluation page so that the comments appear more organized.

- 5) We have added many new and effective methods for error handling.

- 6) We have changed date to day for technical information part.

- 7) We have added how many bids have been submitted to the requests so that the masters can see how many captains bid.

- 8) We made some edits to the words.

- 9) We have increased the hour option.

- 10) We made alignment arrangements.

Thanks for your attention
