Seminar Report

Presenter: Baris KALAYCIOGLU
Company: YD YAZILIM
Presentation Date: 07/12/2018

Short Summary of the Talk

First of all, the speaker introduced himself.The speaker mentioned his field of work and why he chose this area. Second,speaker answered the questions asked by the audience such as work abroad, diploma requirement, lack of experience. Finally,"what are the things that lead to success?" Speaker talked about these and stressed the importance of teamwork.

What have you learned?

According to the speaker,i learned that human relations, being a good listener, being responsible and adapting to team work are the things that provide success in the sector.Being in teamwork is necessary for new ideas and new studies, because in a group everyone is a whole and group members complement each other.

Which parts of the presentation were particularly important/useful?

I think the question part was the most important part. Because the questions answered are questions that many students could ask and to hear the answers to these questions from an experienced person provides me with an idea for the future.

Comment on the talk, the presenter, the company, and their projects

The visual content in the presentation made the presentation more beautiful and remarkable.
